PREMIUM HARDWARE

OUR VISION

To elevate your spaces through handles that are not mere accessories, but true design signatures.

OUR MISSION

To transform the passion for creation into everyday objects that marry functionality and emotion.
At STIA, every handle is a piece conceived as a fusion of craftsmanship,
refined design, and innovation.
Aluminum, our material of choice, embodies resistance and lightness. We shape it with precision to
give life to forms that express both elegance and durability.

OUR VALUES

Passion & Creation – Our handles are born from a deep love for design and an attention to detail.
Every model tells a story—that of a mastered gesture and a constant pursuit of harmony.

Customization & Uniqueness – We believe that every interior deserves a unique identity.
That's why we offer solutions that adapt to your projects, ensuring that every handle becomes a
reflection of your vision.

Durability & Excellence – Aluminum is at the heart of our creations:
robust, modern, and recyclable, it allows us to design products that stand the test of time without
losing their brilliance.

Aesthetics & Emotion – A STIA handle is not just a utilitarian object.
It is an invitation to touch, a piece that enriches the experience of the space and enhances every
opening, every daily gesture.

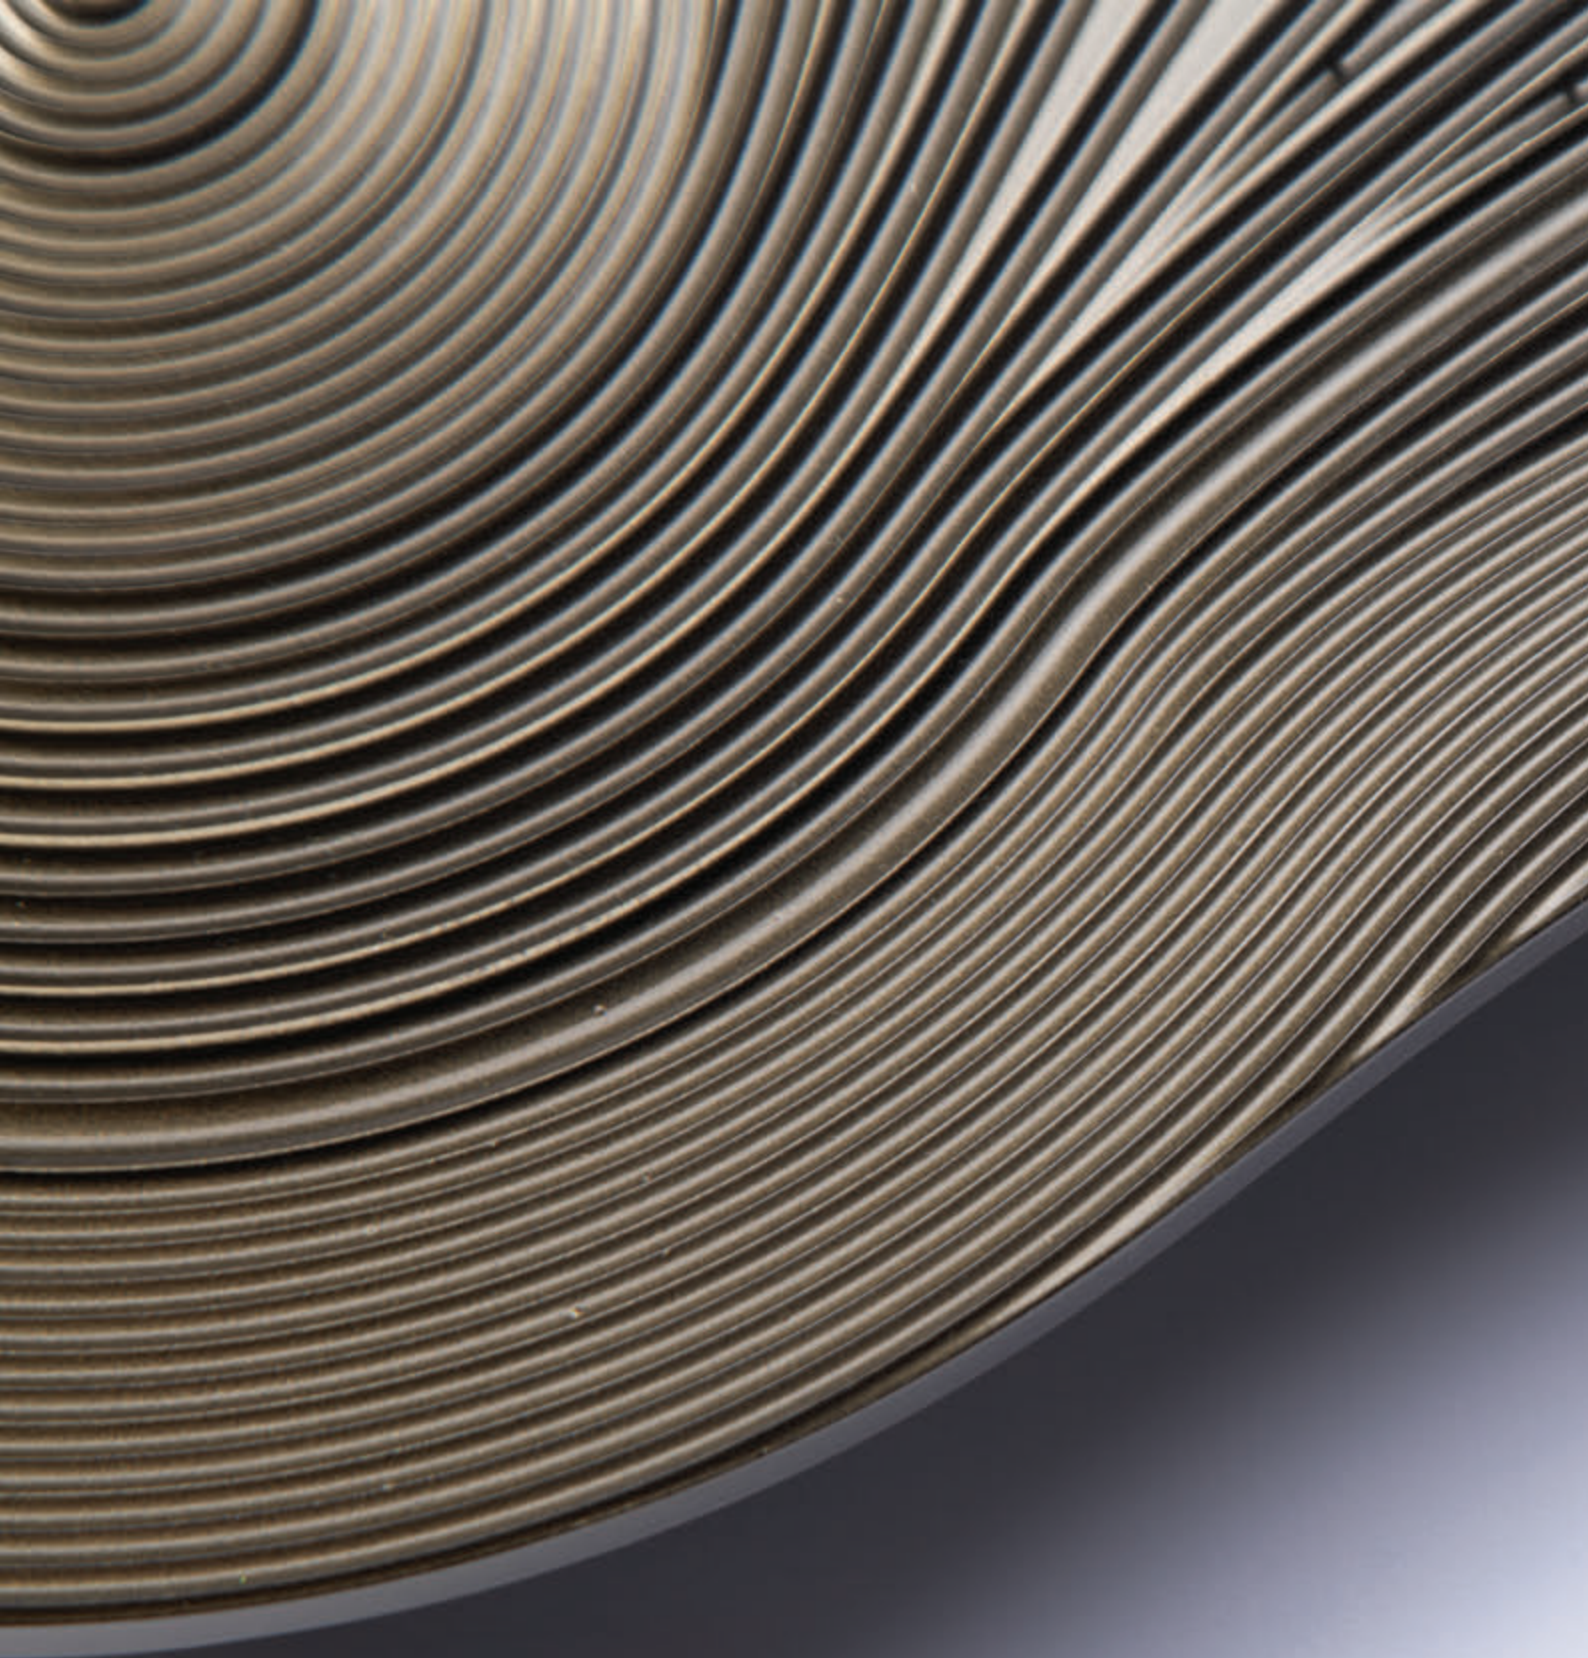

STIA is the story of a company that sees in every door handle much more than a detail:
a discreet yet essential work, where design, innovation, and passion meet.

Our hardware serves as*

Don't settle for the ordinary—elev

DOOR HANDLES

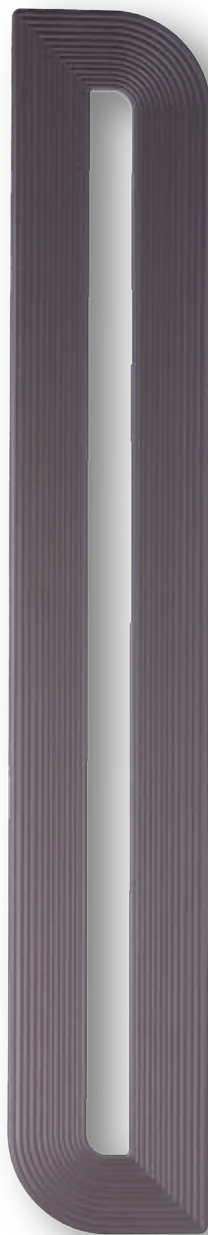

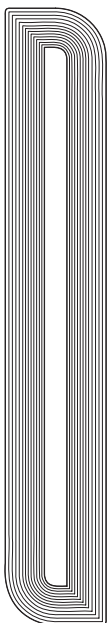

"Excellence is in the details.

*Hardware, we transform the functional into the phenomenal.
the bridge between industrial resilience and timeless design,
ensuring your space feels as solid as it looks sophisticated.
ate your environment with the precision and prestige of STIA."*

EQUINOX

*A minimalist, rectangular loop handle
featuring asymmetrical rounded corners and a sophisticated matte gunmetal finish.
Its face is defined by precision-engineered linear grooves that offer a tactile, high-end feel,
blending industrial strength with modern architectural elegance.*

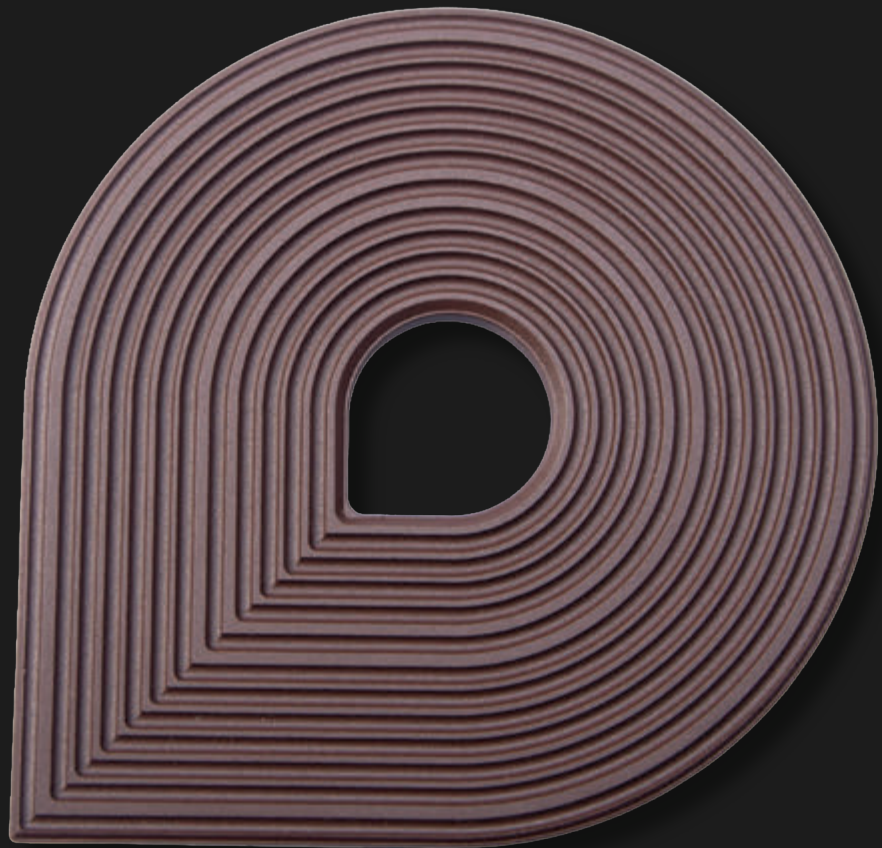

Ref. ST-LOTUS-14CM

DOOR HANDLES

LOTUS

Lotus is a sculptural door handle with flowing, layered curves that spiral inward like a blooming flower. Its warm metallic finish and rhythmic contours create a sense of calm, balance, and refined elegance.

AERO

Aero is a sleek, elongated door handle with an organic, cut-out lattice that feels light and futuristic. Its sculpted metallic frame blends strength with airy elegance for a modern look.

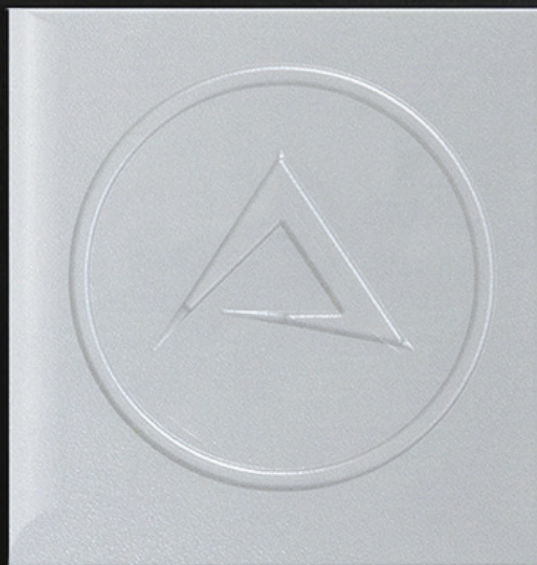

SERENDIPITY

*A sculptural triumph, featuring a fluid, organic silhouette that tapers into elegant points.
Its rich bronze finish is accentuated by
radiating, precision-milled grooves, creating a hypnotic visual texture
that seamlessly blends artistic expression with premium industrial craftsmanship.*

Ref. ST-ALLURE-30

DOOR HANDLES

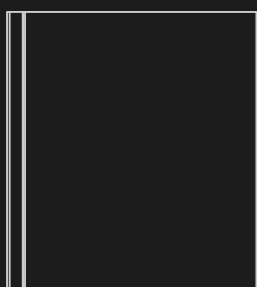

ALLURE_{30CM}

Allure is a modern door handle with smooth, flowing lines that create a sleek and elegant silhouette. With an extended length of 30 cm, it offers a bold presence and comfortable, ergonomic grip.

ALLURE^{15CM}

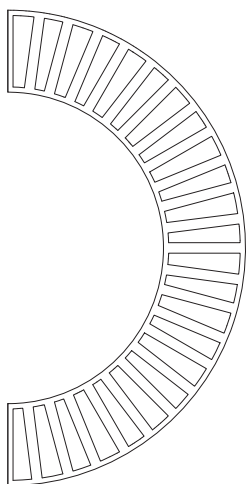

Allure is a sophisticated door handle featuring smooth, flowing curves inspired by organic forms. With a refined length of 15 cm, it offers a perfect balance of elegance and ergonomic comfort.

ECLIPSE

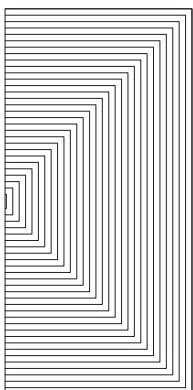

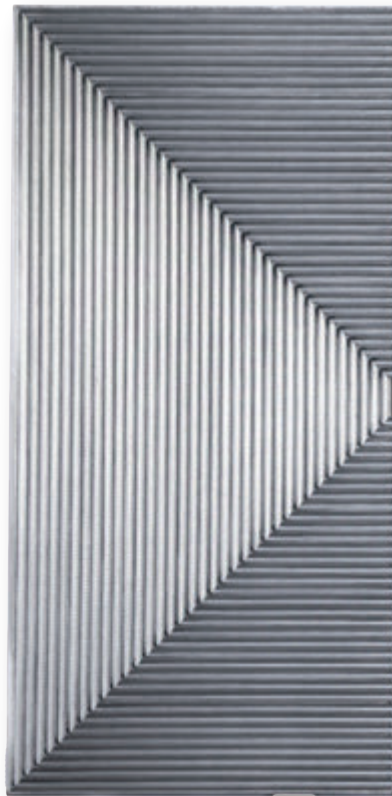

The Eclipse is a sculptural, moon-inspired pull featuring a sleek semi-circular profile and refined finish. It can be used solo as a crescent accent or paired to create a bold, complete circular statement.

PRISME

A minimalist, rectangular loop handle featuring asymmetrical rounded corners and a sophisticated matte gunmetal finish. Its face is defined by precision-engineered linear grooves that offer a tactile, high-end feel, blending industrial strength with modern architectural elegance.

AZUR

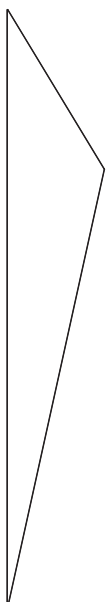

Azur is a minimalist circular door handle with a smooth, sculpted form and a deep matte black finish. Its subtle central embossing adds tactile depth, delivering a quiet, modern elegance that integrates seamlessly into contemporary interiors.

TRYLOGY

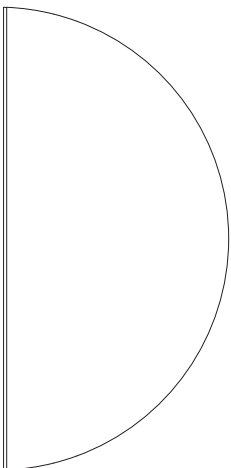

*A sculptural door handle defined by sharp, angular geometry and a sleek matte black finish.
Its faceted form creates a bold architectural statement,
blending precision with a distinctly modern edge.*

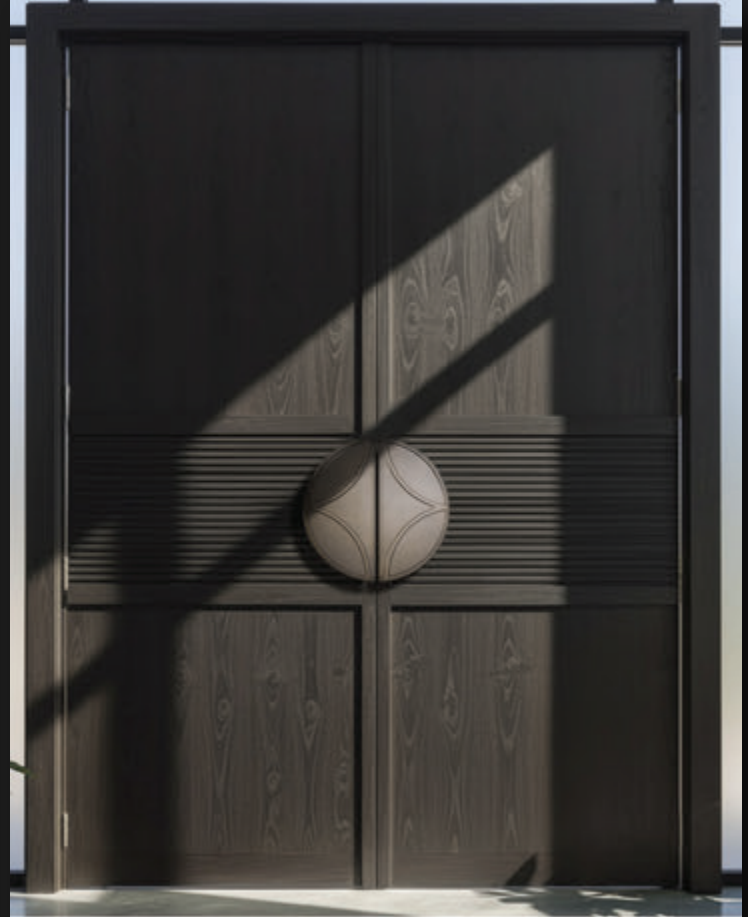

LUNA

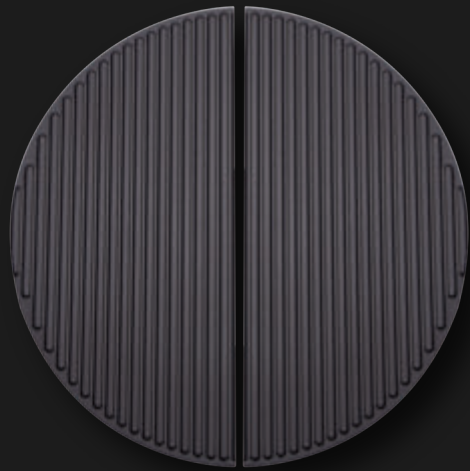

*A softly curved door handle defined by a pure semicircular form and a refined matte dark finish.
Its balanced geometry and smooth surface create a calm,
contemporary presence with understated elegance.*

LUNA TEXTURE

*A circular door handle enriched with finely milled linear textures that add grip and visual rhythm.
The subtle grooves catch the light softly,
enhancing depth while preserving a refined, contemporary elegance.*

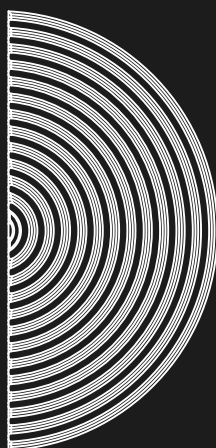

Ref. ST-SPECTRE

DOOR HANDLES

SPECTRE

This circular, metallic silver door handle features a minimalist split-moon design. Its surface is defined by deep, concentric ridges that create a tactile, ripple-like texture.

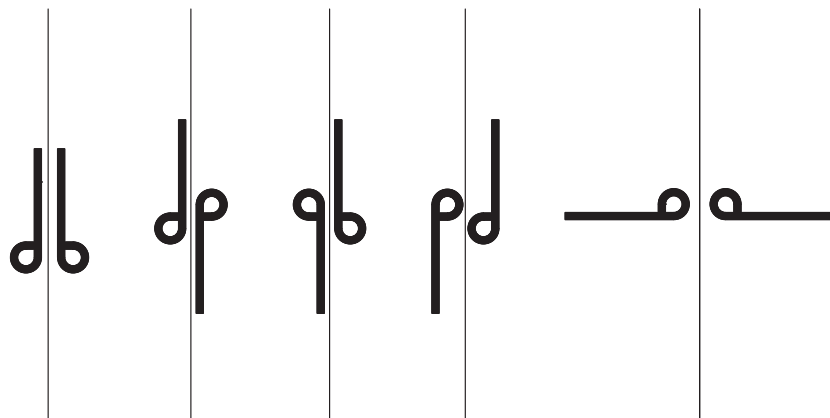

SOLYS

*This elongated pull handle features a sleek vertical bar
that terminates in a stylized, circular loop.*

Its entire surface is detailed with fine, linear grooving that emphasizes its modern, graphic silhouette.

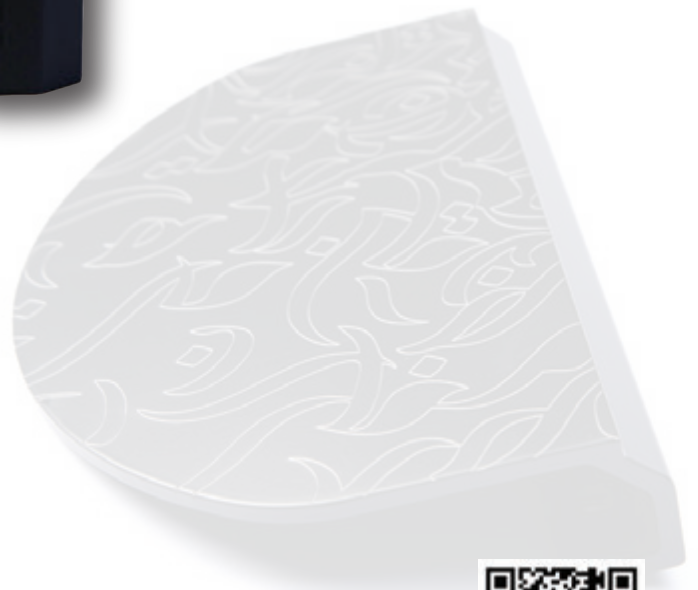

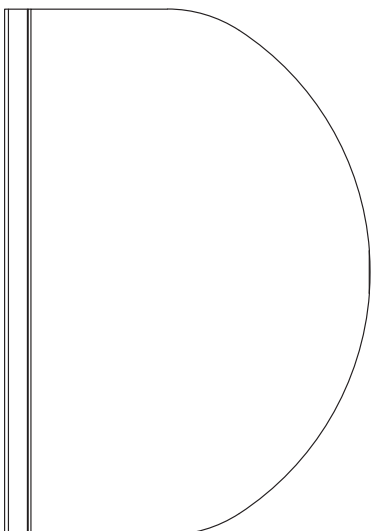

AURA

Calligraphy

A semi-circular masterpiece where modern minimalism meets the rhythmic soul of traditional artistry. Aura Calligraphy transforms the door handle into a canvas, featuring intricate Arabic script etched into a deep, matte finish.

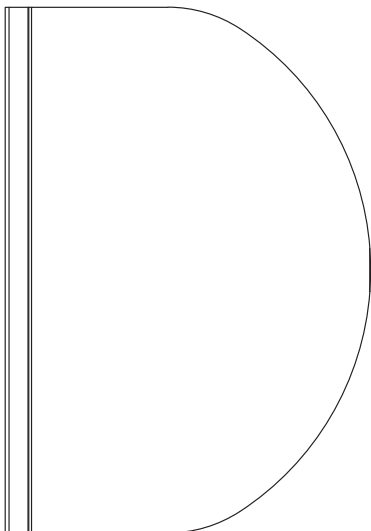

Designed for those who view their home as a gallery, this half-moon silhouette balances bold architectural presence with fluid, poetic detail. It is not merely hardware; it is a signature of cultural elegance turning every touch into a moment of storytelling.

AURA

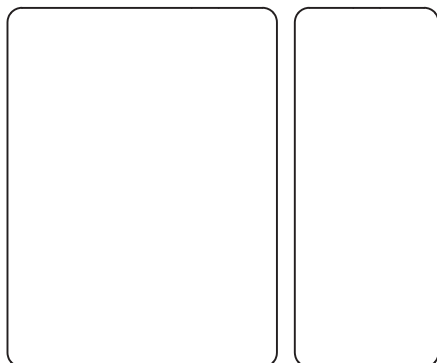

The Aura handle is a study in semicircular elegance. Moving away from sharp edges, it embraces a gentle, half-moon silhouette that feels as natural as it looks. Its substantial, solid form provides a confident grip while maintaining a low-profile, minimalist aesthetic that integrates seamlessly with modern cabinetry and interior doors.

ZAHO

*Inspired by clean lines and geometric precision,
ZAHO elevates modern doors with its understated yet powerful presence.
Its sleek rectangular form blends functionality with refined design,
turning a simple handle into a statement of architectural sophistication.*

LUNA

Calligraphy

*A circular masterpiece defined by the fluid rhythm of hand-etched script.
Luna balances the bold,
matte geometry of modern architecture with the timeless soul of calligraphy.
It is more than a handle, it is a tactile dialogue between the past and the future.
Transform the entrance into an experience.*

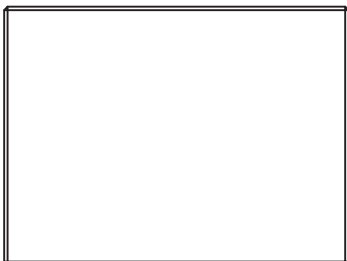

KAYA

*Defined by clean lines and a refined presence,
KAYA is designed to complement contemporary spaces with quiet sophistication.*

*Its balanced proportions and smooth finish create a subtle yet distinctive detail
proving that true design often speaks through simplicity.*

SIERRA

A bold architectural handle enriched with flowing calligraphic lines, blending tradition with contemporary precision.

Sculpted for statement entrances, Sierra brings depth, rhythm and cultural elegance to modern spaces where craftsmanship tells a story through every touch.

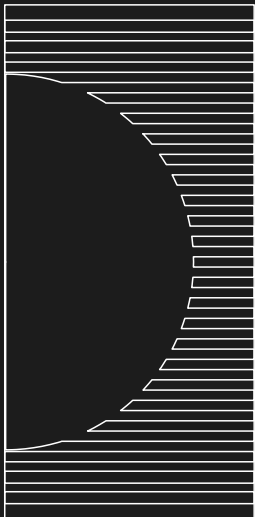

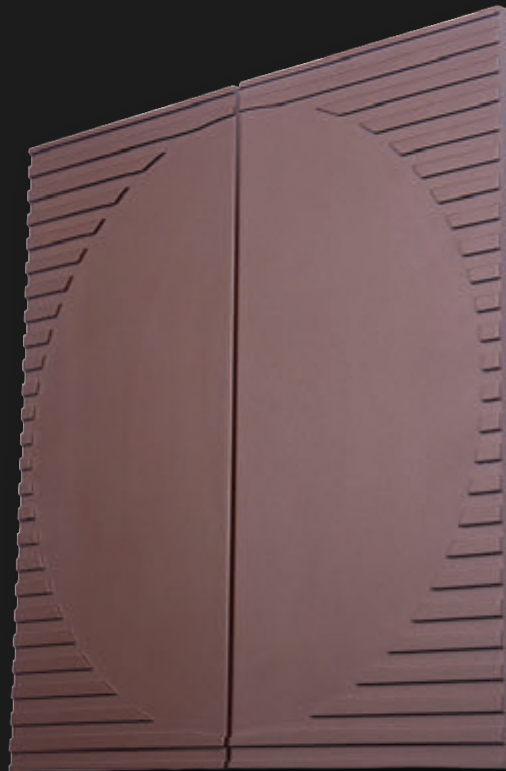

SOLARIA

*A sculptural door handle where stepped lines trace a subtle arc,
creating rhythm, depth, and movement.*

*Precision-crafted to interact with light and shadow,
Solaria elevates modern entrances with warmth, balance, and quiet sophistication
because design lives in the details you feel.*

AURORA

*AURORA's concentric rings radiate with quiet authority
each groove precisely machined,
each layer adding depth to a form that is both minimal and mesmerizing.
Set against dark, architectural surfaces, it doesn't just function as a knob,
it becomes the focal point of the entrance.
Crafted for spaces where every detail is intentional.*

WOOD

*Inspired by the rings of a tree, sculpted in solid brushed aluminum.
Every layer tells a story of growth,
carved into a form that turns your entrance into a statement.
Not just a handle. A piece of art you touch every day.*

CURVE

*Crafted to make a striking statement on luxury entryways,
its fluid, ergonomic silhouette delivers an unforgettable tactile experience
from the very first touch.
Designed for those who appreciate refined aesthetics and timeless detail.*

CURVE_{TEXTURED}

Design you can feel before you even step inside.

The CURVE Textured pull handle features a precision-milled relief grid that catches light and shadows from every angle.

*Up close, concentric geometric ripples meet a high-density micro-embossed finish
For an unforgettable tactile experience.*

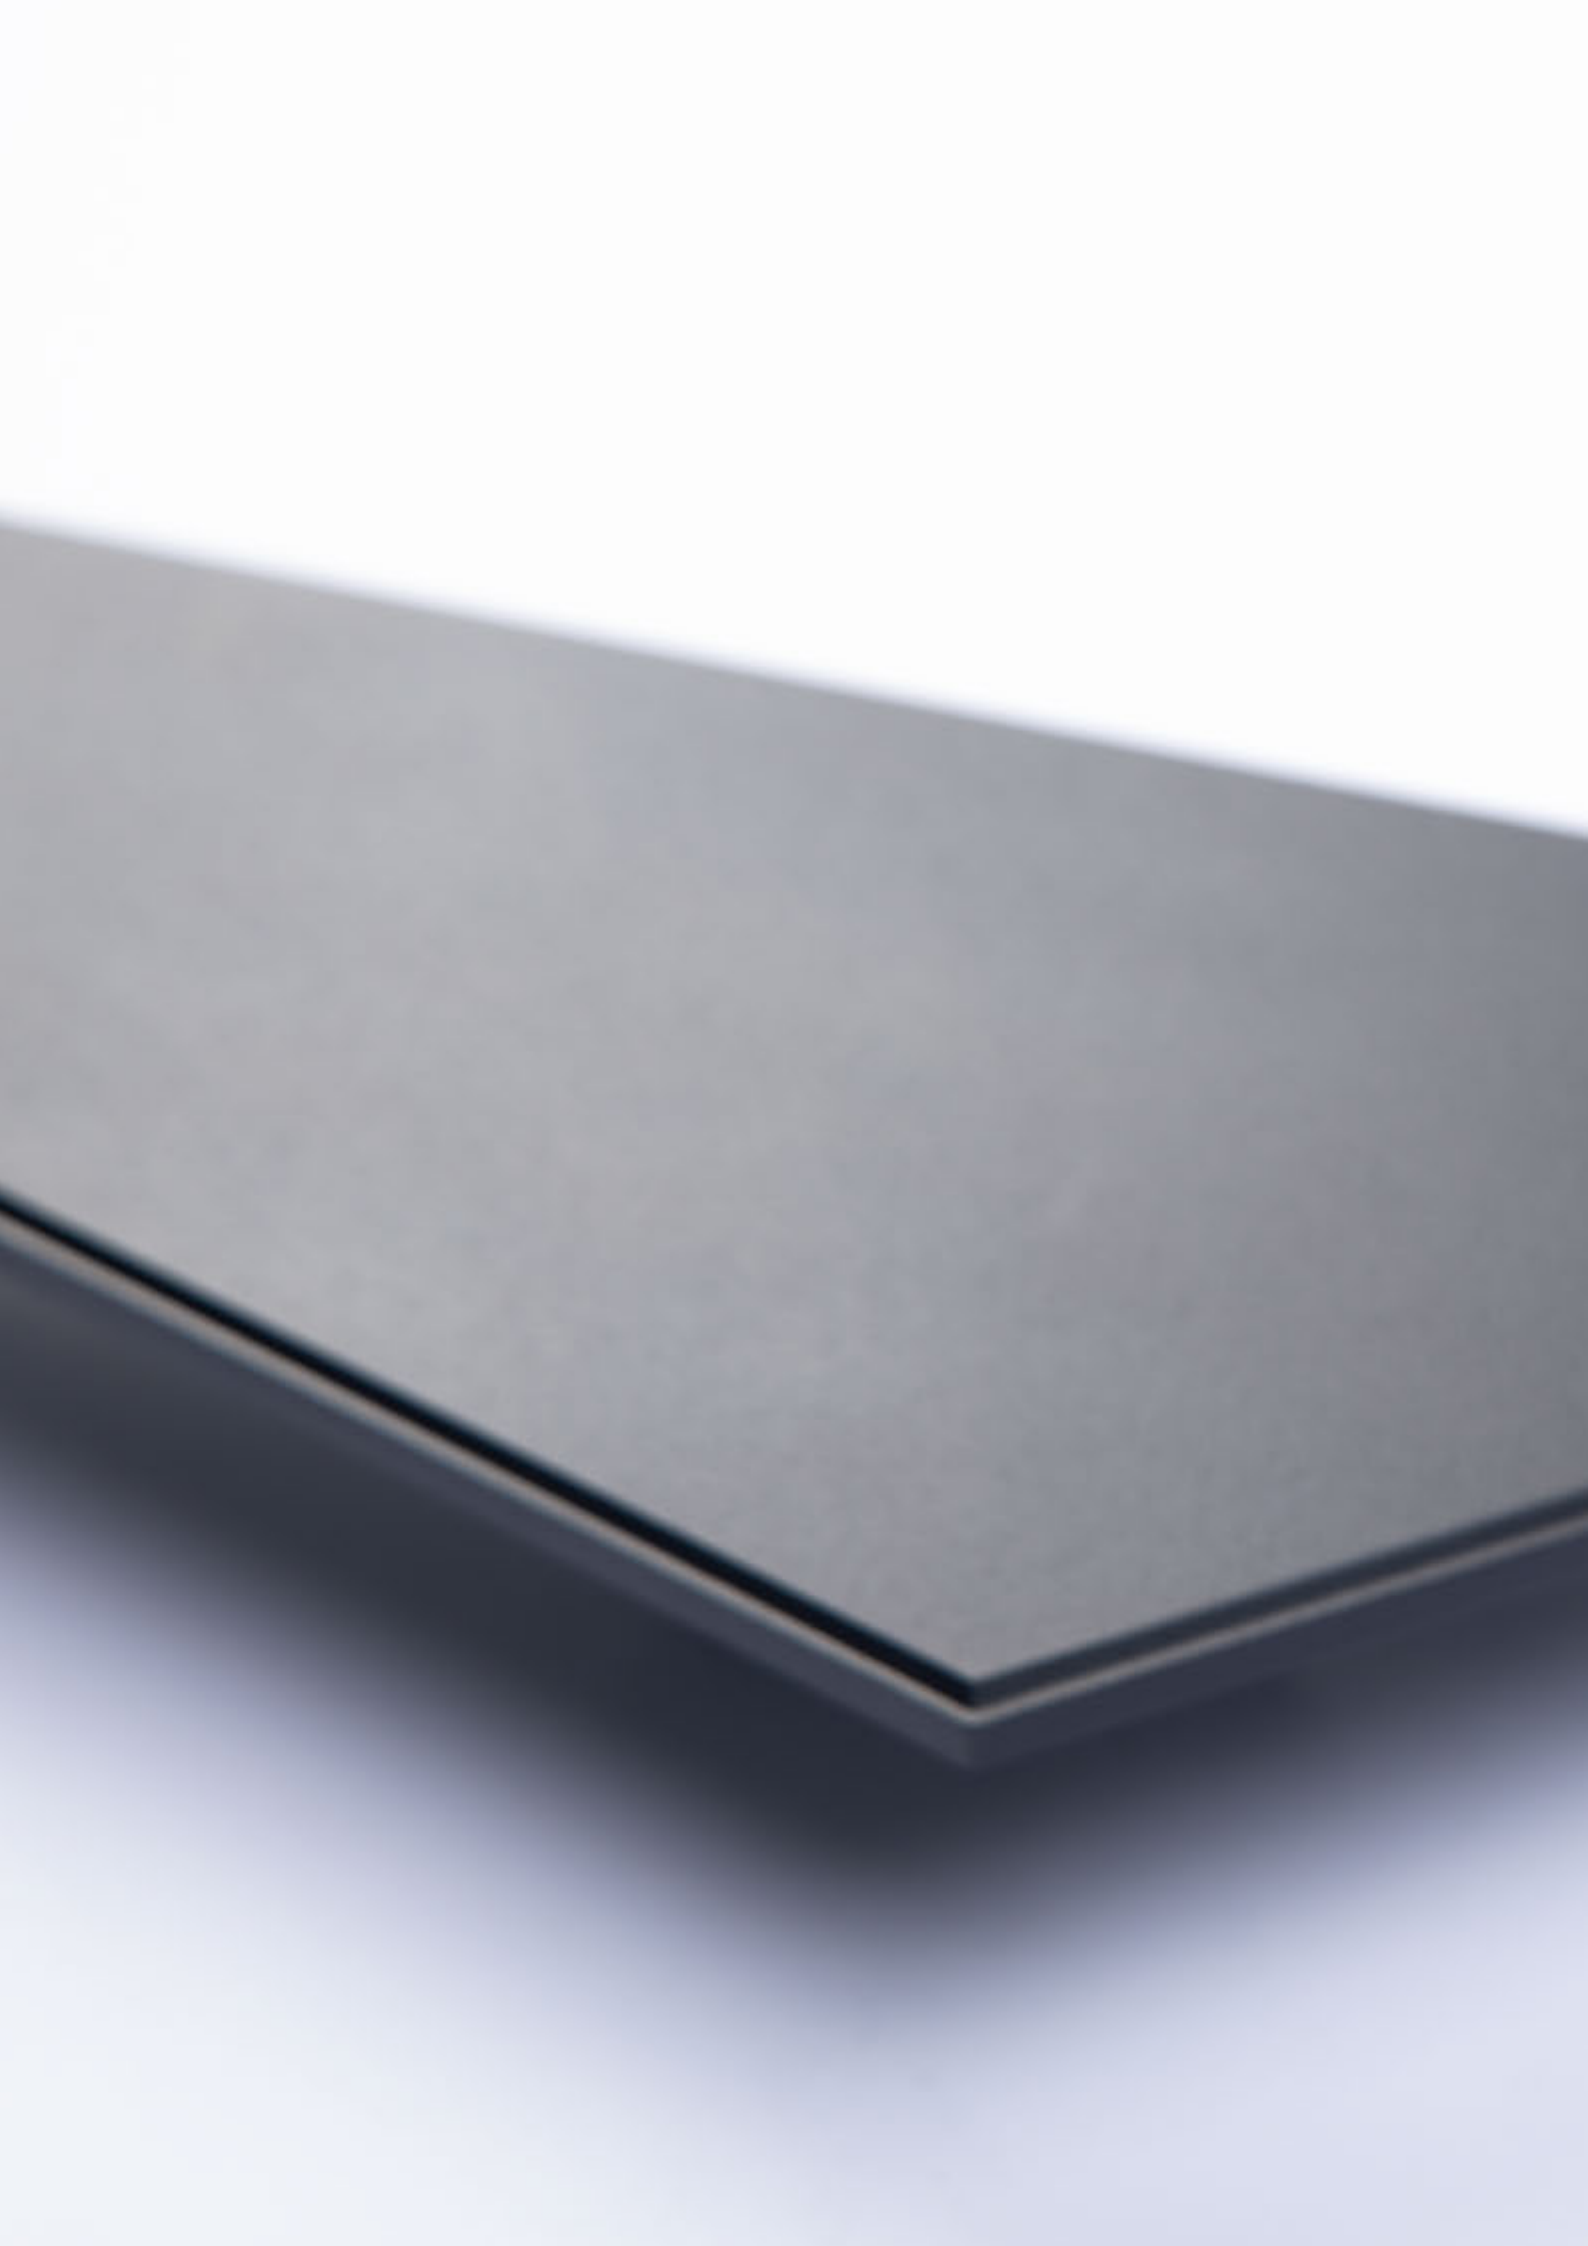

Ref. ST-SPIRE

DOOR HANDLES

SPIRE

*Sculptural, sleek, and utterly sophisticated.
Meet the Spire, designed to make a statement from the very first touch.*

Our *BTM* Collection

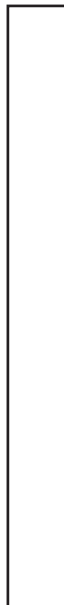

BTM PLATE

*Defined by its sleek linear form and architectural presence,
BTM PLATE is designed to adapt seamlessly across different heights.*

*Whether subtle or statement-making,
its clean profile enhances the vertical rhythm of any door,
bringing balance, precision, and modern elegance to every space*

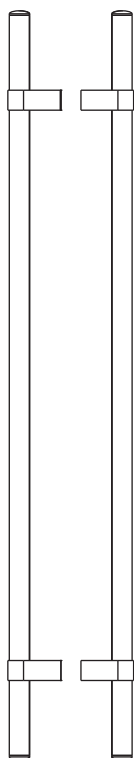

BTM ROUND

*With its sleek cylindrical body and softly curved supports,
embodies a refined balance of strength and fluidity.*

*Designed for modern spaces,
its minimalist silhouette delivers a confident yet understated presence,
proving that simplicity can leave a lasting impression.*

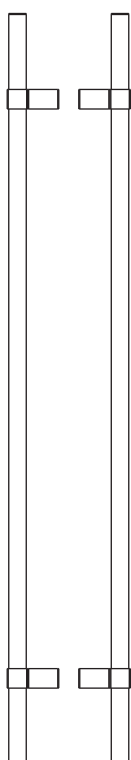

BTM SQUARE

*With its sleek cylindrical body and softly curved supports,
embodies a refined balance of strength and fluidity.*

*Designed for modern spaces,
its minimalist silhouette delivers a confident yet understated presence,
proving that simplicity can leave a lasting impression.*

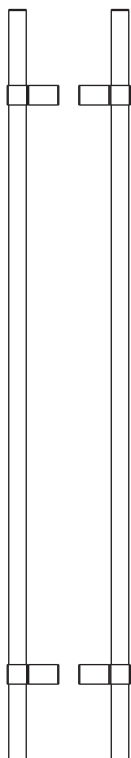

BTM RECTANGULAR

*Great architecture is all about proportions and details.
Our Entrance Pull is designed specifically to complement oversized doors,
bringing a seamless, modern edge to luxury residential projects.*

*The matte black finish offers a striking contrast against
natural wood and stone textures.*

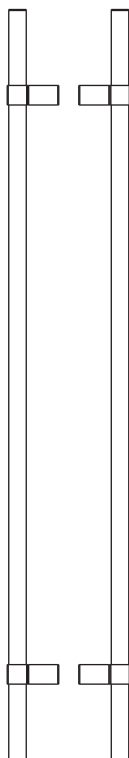

BTM SQUARE CUSTOM

Define your entrance. The sleek, matte black door to Box 1, with its towering, custom-integrated vertical pull handle, a statement in dark, brushed metal.

Every detail is considered, from the tactile finish to the integrated unit text.

Ref. ST-LINEA

DOOR HANDLES

LINEA

*Designed as a seamless extension of the door,
LINEA embodies clarity, balance, and refined minimalism.*

*Its elongated form and customizable heights create a striking vertical statement,
tailored to elevate each entrance with architectural intent.*

LINEA CAVIAR

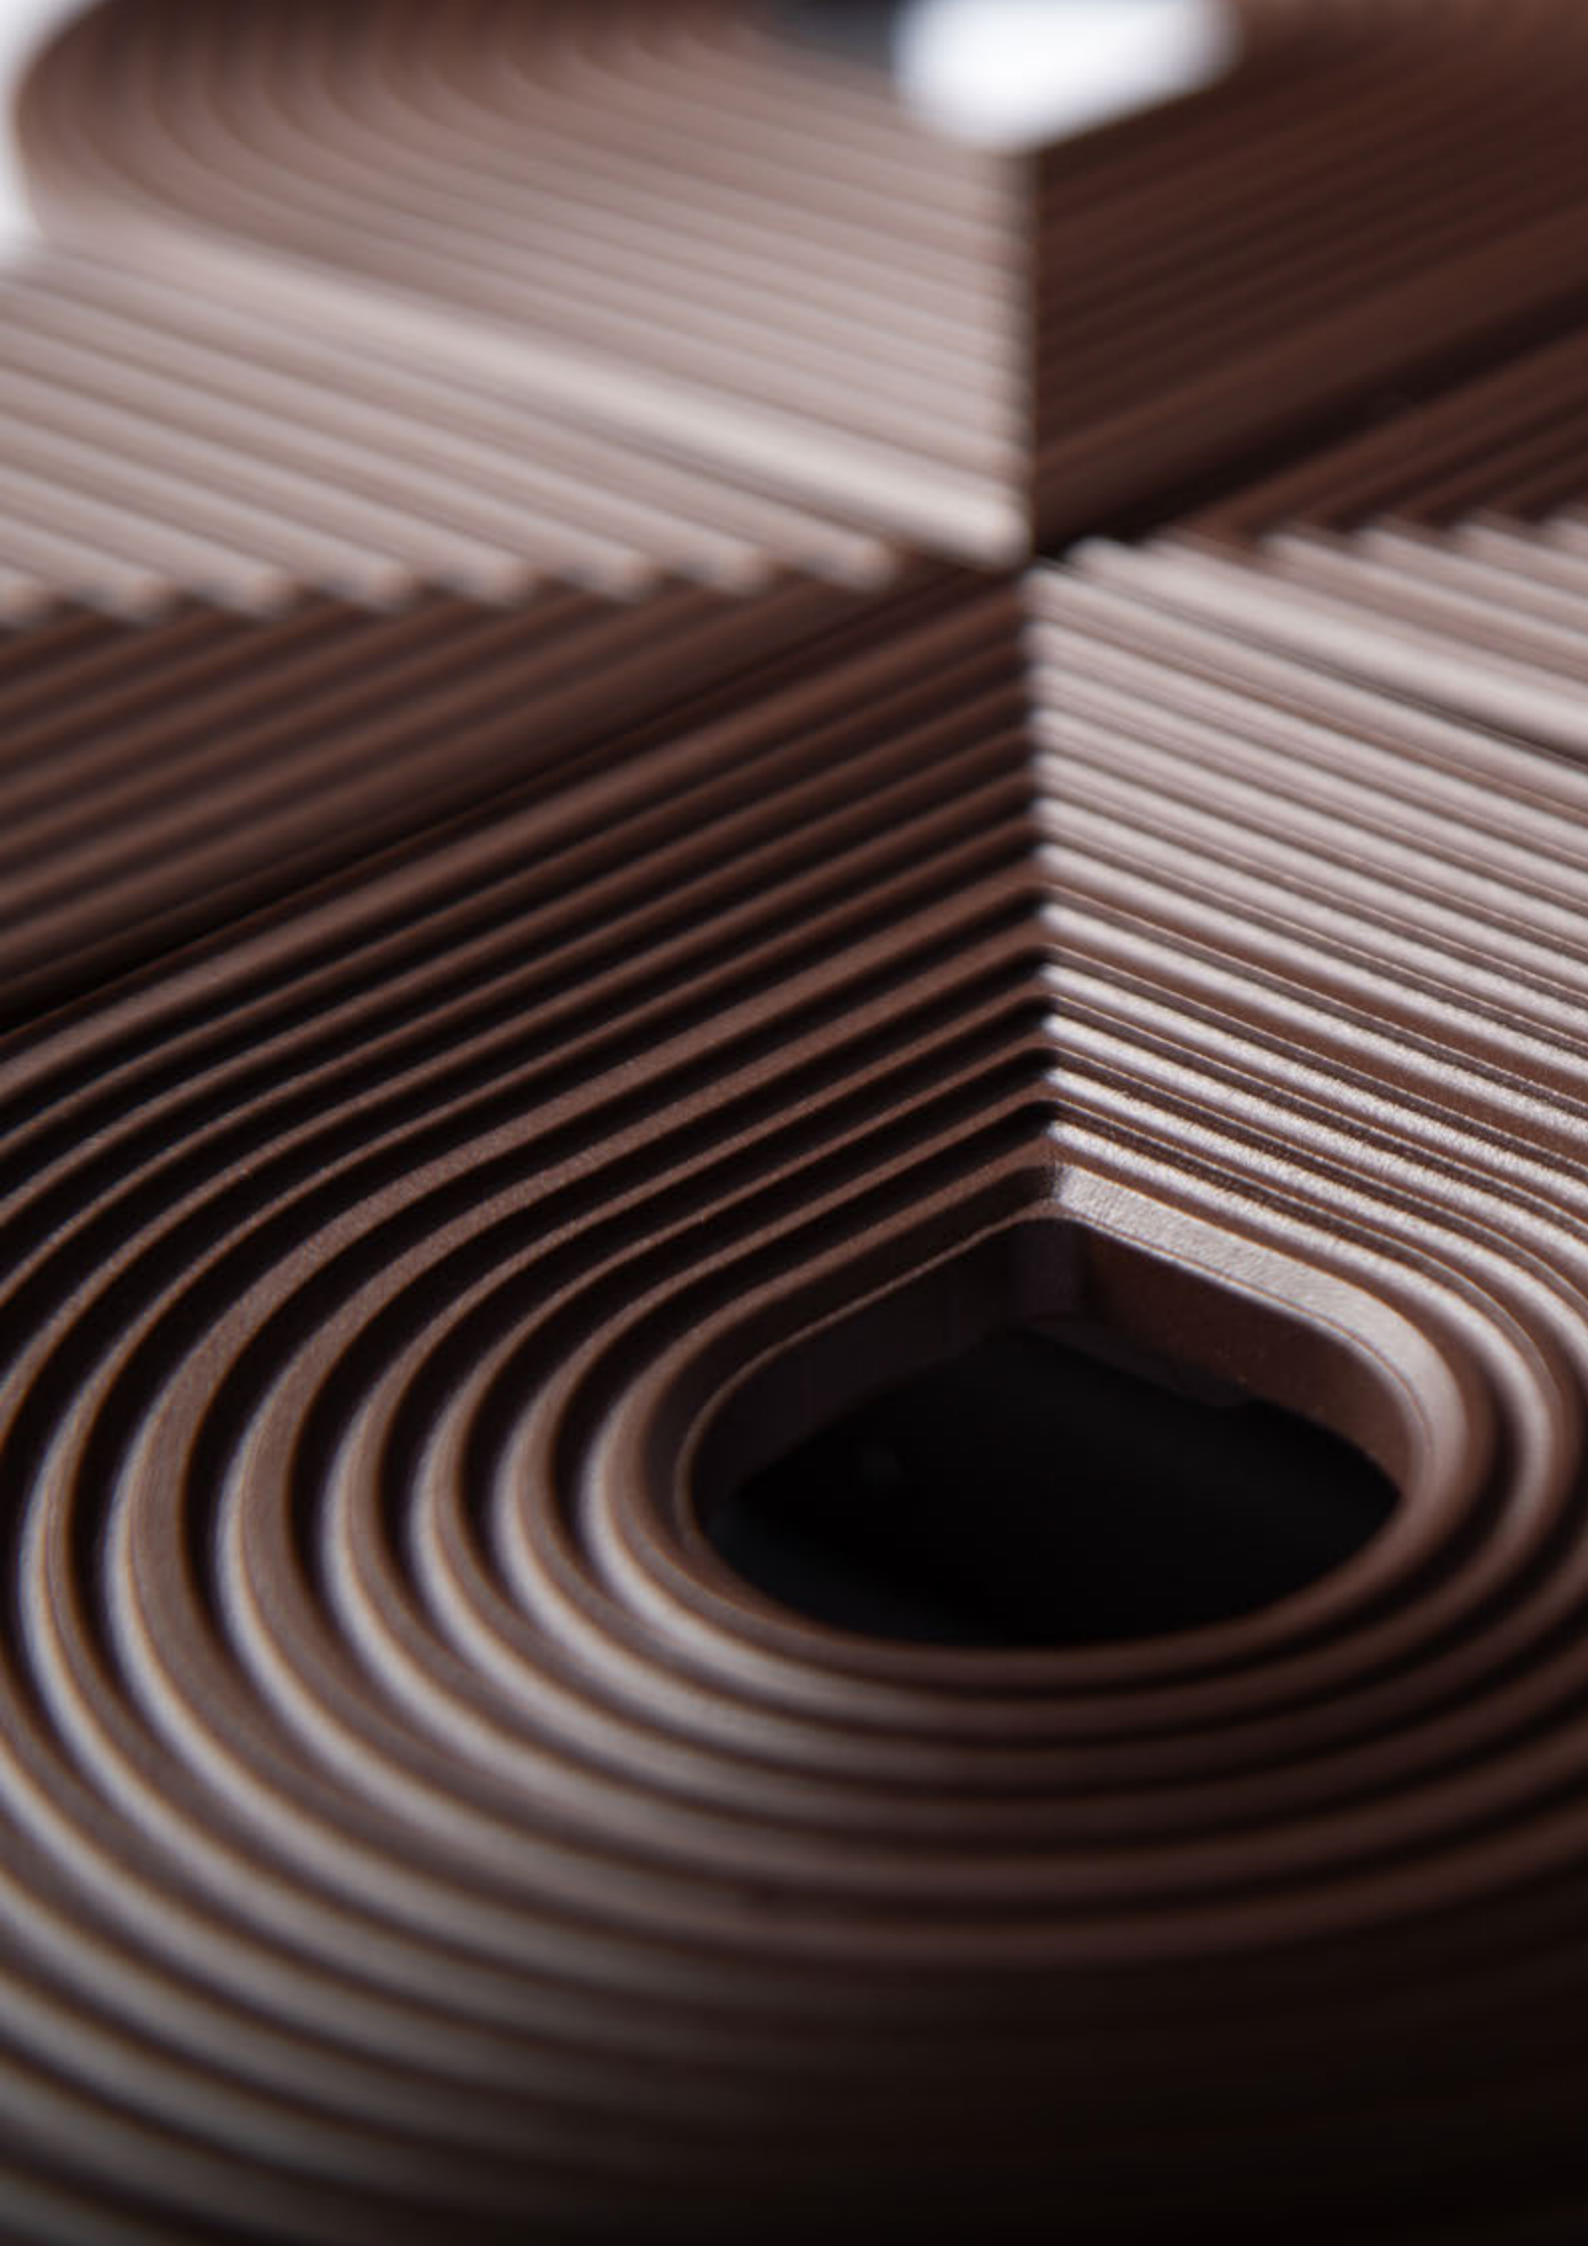

Raw texture meets refined scale.

Capturing the perfect balance between organic detail and sharp, minimalist geometry,

LINEA CAVIAR is designed to elevate grand entrances.

Its signature textured finish catches the light with every angle, adding depth, rhythm and sophisticated drama to the vertical plane of any door.

The image shows a close-up of two dark brown, oval-shaped cabinet handles. The handles have a textured surface with concentric rings or ridges. One handle is in the foreground, slightly out of focus, while the other is behind it, more in focus. The background is a dark, blurred surface.

Our ***Cabinet Handles***
Collection

DROP

*Capturing the organic grace of a single droplet,
DROP brings fluid geometry to bespoke cabinetry.*

*Its distinctive asymmetrical silhouette and deep matte black finish
create a striking yet balanced focal point proving that
the most captivating designs often found in the finest details.*

LOTUS CH

*Inspired by the quiet elegance of layered petals,
LOTUS brings movement and depth to modern cabinetry.*

*Its flowing concentric lines create a striking yet balanced presence,
transforming a functional element into a refined architectural detail.*

LEAF

Bring a natural touch into your home with our Leaf pull handles. More than simple hardware, each piece is crafted like a small sculpture, adding organic texture and character to your kitchen cabinets or vanity.

With carefully detailed veins and a strong, solid finish, every handle reflects the natural beauty and uniqueness found in nature.

The perfect finishing detail for a home that feels alive.

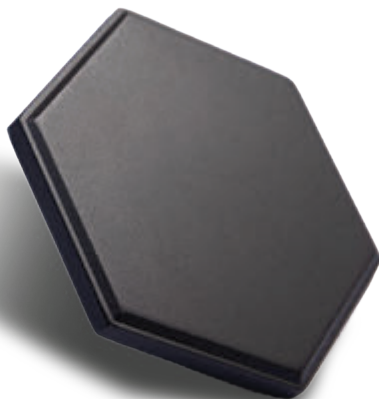

HEXA

Defined by its bold hexagonal silhouette and refined edges, HEXA brings a contemporary architectural touch to any space.

Its clean geometry and solid presence create a statement of balance and precision, where form meets function with effortless elegance.

Our ***INFINITY***
Collection

KNOB HANDLE SIMPLE 4CM

With its 4cm diameter, MINI delivers a refined balance of form and function. Its clean circular silhouette and smooth matte finish create a subtle yet confident detail, ideal for contemporary spaces that value precision in every touch.

KNOB HANDLE FINISH X-4CM

Designed for a high-end, modern aesthetic, its tactile geometric detailing provides a sophisticated industrial touch that perfectly complements luxury architectural environments.

This handle offers a refined balance of editorial, quality craftsmanship and functional elegance for a truly polished look.

KNOB HANDLE SIMPLE 1.8CM

The tiered base and flat-top design offer a subtle architectural silhouette, making it a perfect accent for contemporary high-end cabinetry. Its understated profile provides a sophisticated, modern touch for interiors that prioritize sleek, functional luxury.

KNOB HANDLE FINISH X-1.8CM

Its compact cylindrical profile and signature diamond-patterned texture offer a sophisticated tactile experience, making it an ideal choice for high-end cabinetry and modern architectural projects.

Finished in a sleek, matte black, this piece provides a refined geometric accent that effortlessly enhances premium interiors with understated elegance.

T-BAR 6CM

A perfect fusion of industrial edge and modern sophistication.

Measuring 7cm in width, this T-bar handle features a striking knurled texture that provides both a tactile grip and a high-end, custom look for your kitchen or furniture.

Its sleek, dark metallic finish adds a bold touch of character to any space, proving that even the smallest hardware details can make a significant design statement.

BUTTON 4CM

***Button** offers a masterclass in minimalist design, blending a bold matte black finish with a sleek, low-profile silhouette. This circular, flat-top hardware serves as the perfect "jewelry" for a modern home, providing a sophisticated industrial touch that elevates standard cabinetry into a statement of refined elegance. Its understated yet powerful aesthetic makes it an ideal choice for those looking to add high-end detail to contemporary or minimalist interiors.*

MINI DROP

The Leaf cabinet handle merges organic teardrop geometry, creating a sculptural focal point for premium cabinetry.

Despite its compact 2.2 cm height, the handle is designed for ergonomic precision, offering a tactile and sophisticated grip that complements high-end materials like light wood or stone.

Its fluid, tapered silhouette brings a sense of rhythm and modern elegance to any contemporary interior project.
